

MATERIAL SAFETY DATA SHEET

Chemical Product

Product Name: 3-NITRO ANILINE

CAS#: 99-09-2

Synonym: m-Nitro Aniline

Chemical Name: Not Available.

Chemical Formula: C₆H₆N₂O₂

Composition and Information on Ingredients

Name	S.K.U	% by Weight
3-Nitro Aniline	GCS-9637	100

Hazards Identification

Risk advice to man and the environment:

Toxic by inhalation, in contact with skin and if swallowed. Danger of cumulative effects.
Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

First Aid Measures

General advice: Consult a physician. Show this safety data sheet to the doctor in attendance.

If inhaled:

If breathed in, move person into fresh air. If not breathing give artificial respiration Consult a physician.

In case of skin contact:

Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician.

In case of eye contact:

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

If swallowed:

Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

Fire and Explosion Data

Suitable extinguishing media:

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special protective equipment for fire-fighters:

Wear self contained breathing apparatus for fire fighting if necessary.

Accidental Release Measures

Personal precautions: Wear respiratory protection. Avoid dust formation. Avoid breathing dust. Ensure adequate ventilation. Evacuate personnel to safe areas.

Environmental precautions:

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

Methods for cleaning up:

Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal.

Handling and Storage

Handling:

Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.

Storage:

Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

Exposure Controls/Personal Protection

Personal protective equipment

Respiratory protection:

Where risk assessment shows air-purifying respirators are appropriate use a dust mask type N95 (US) or type P1 (EN 143) respirator. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N99 (US) or type P2 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator.

Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Hand protection:

The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Handle with gloves.

Eye protection: Safety glasses

Skin and body protection:

Choose body protection according to the amount and concentration of the dangerous

substance at the work place.

Hygiene measures:

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product.

Physical and Chemical Properties

Appearance Form	: Crystalline
Molecular Weight	: 138.12 g/mole
pH	: No data available
Melting point	: 111-114 °C
Boiling point	: 306.0 °C
Flash point	: 196.0 °C - closed cup
Ignition temperature	: No data available
Lower explosion limit	: No data available
Upper explosion limit	: No data available
Water solubility	: No data available

Stability and Reactivity Data

Storage stability: Stable under recommended storage conditions.

Materials to avoid: acids, Acid chlorides, Acid anhydrides, Chloroformates, Strong oxidizing agents

Hazardous decomposition products:

Hazardous decomposition products formed under fire conditions. - Carbon oxides, nitrogen oxides (NOx)

Toxicological Information

Acute toxicity: LD50

Oral - rat - 535,0 mg/kg

Irritation and corrosion:

No data available

Sensitisation: No data available

Chronic exposure

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

Signs and Symptoms of Exposure:

Absorption into the body leads to the formation of methemoglobin which in sufficient concentration causes cyanosis. Onset may be delayed 2 to 4 hours or longer., To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Potential Health Effects

Inhalation May be harmful if inhaled. Causes respiratory tract irritation. Skin May be harmful if absorbed through skin. May Causes skin irritation. Eyes May Causes eye irritation.

Ingestion Toxic if swallowed.

Target Organs Heart, Lungs, Liver, Blood,

Ecological Information

Elimination information (persistence and degradability)

Bioaccumulation Brachydanio rerio (zebra fish) - 96 h Bioconcentration factor (BCF): 8,3

Ecotoxicity effects

Toxicity to fish LC50 - other fish - 81,2 mg/l - 96 h Toxicity to daphnia and other aquatic invertebrates. EC50

- Daphnia magna (Water flea) - 0,19 - 2,02 mg/l - 48 h Toxicity to algae EC50 - No information available. - 28,00 - 58,00 mg/l - 72 h

Further information on ecology

Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Disposal Considerations

Product: Observe all federal, state, and local environmental regulations. Contact a licensed professional waste disposal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber.

Contaminated packaging: Dispose of as unused product.

Transformation Information

Land transport (ADR-RID)

Proper shipping name: NITROANILINES (o-, m-, p-)

UN N°: 1661

H.I. nr: 60

ADR - Class: 6.1

Labelling - Transport: 6.1 : Toxic substances.

ADR - Group: II

Sea transport (IMDG) [English only]

Proper shipping name: NITROANILINES (o-, m-, p-)

UN N°: 1661

IMO-IMDG - Class or division: 6.1 : Toxic substances.

IMO-IMDG - Packing group: II

Air transport (ICAO-IATA) [English

only] Proper shipping name:

NITROANILINES (o-, m-, p-) UN

N°: 1661

IATA - Class or division: 6.1 : Toxic substances.

IATA - Packing group: II

Other Regulatory Information

Labelling according to EC Directives

EC Label: Hazard symbols

T Toxic

R-phrase(s)

R23/24/25 Toxic by inhalation, in contact with skin and if swallowed. R33 Danger of cumulative effects.

R52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

S-phrase(s)

S28 After contact with skin, wash immediately with plenty of .?. S36/37 Wear suitable protective clothing and gloves.

S45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). S61 Avoid release to the environment. Refer to special instructions/ Safety data sheets.
